# CLARE HUDSON DESIGN

*Is renovation on your agenda?*

WHEN you read home decoration magazines, interior design looks so simple but all too often when the endless decisions start mounting, reality sets in and you wish you had a guiding hand. Take for example choosing a kitchen worktop. Do you prefer the look of a composite stone, solid wood, granite, stainless steel or a laminate surface? This part comes quite naturally to many people but take care to contemplate the practicalities of your choice. Once you have decided on the material you will then face an exhaustive list of colours with names unhelpfully termed Sienna Ridge, Haiku or Coco Bolo. Uncertainty starts to creep in as you waver on whether your decision to go with Romantic Walnut suits the shaker style cabinets or should you have stuck with inset doors, handleless units or actually would beadboard cabinetry be a better fit with your exposed beams? What starts out as an exciting project can quickly escalate into a hair-pulling nightmare if you do not have the guidance, reassurance and input from a professional.

At Clare Hudson Design we offer a complete service from concept to completion. If you have a large or complex renovation project in mind, our Interior Architecture service will be the ticket for you. By producing all our CAD drawings and 3D visuals in house, we deliver beautiful interiors

through the spatial adaptation of an existing footprint. From lighting and electrical layouts to designing upholstered walls and secret doors we can ensure that all your tradesmen work off a coherent set of plans and elevations.

If you are not planning any major building works to your home but want to give it an update, then our Interior Design service is the answer. We will work closely with you to understand your requirements before producing comprehensive mood boards that compile colour and soft furnishing schemes. Sourcing antiques, light fittings and artwork to complete the designed look and create the ambience desired is something that many of our clients require. We also offer a bespoke furniture design service so you can have the perfect size sofa for your snug room or beautiful joinery from a wardrobe to a bathroom cabinet.

Successful design results from strong collaboration with our clients. We work hard to ensure that all conceptual, aesthetic and functional requirements are addressed and are fully integrated into each design. The outcome is that by combining elegance with informality we create spaces that you never want to leave. From updating one room to an entire property refurbishment let us transform your home.
